

HOW TO SHARE YOUR DIGITAL TICKETS

- 1 Once logged in, click on the upcoming performance to view your digital tickets.

Click on the SHARE button. (There may be delayed or restricted access to Share Tickets for specific shows.)

- 2 Select the ticket(s) you wish to SHARE.

Click on each ticket location you want to share. The ticket will show "Selected" and a display a checkmark.

Click the checkbox to agree to the Terms of Use for sharing tickets and hit the NEXT button. (You may hit CANCEL if you don't want to proceed.)

- 3 Type in the full name of the guest you wish to share the ticket(s) with and click the CONFIRM button.

- 4 Now you can share the invite with your guest. You may copy the invite link using the small COPY INVITE button, or share via text, email, or your preferred messaging tool by clicking the SHARE INVITE VIA button to see your options.

- 5 Once your guest clicks the invite link you shared, they'll see a message to accept the ticket(s) and log in to their existing Broadway Sacramento account—or to create an account.

When the tickets are accepted, your guest will be able to continue to access their tickets on the Mobile Ticket Wallet Website: tickets.broadwaysacramento.com. Keep in mind that your guest must use a mobile device to log into the website and scan their tickets in at the venue. Screenshots will not be accepted and tickets cannot be downloaded into an Apple or Google wallet.
